### Mean Time To Repair (MTTR)

The average time to repair a device or a system back to acceptable operating conditions. The term can also mean, the time spent to restore a machine to operating condition after failure. **This must be as low as possible.**

### Mean Time Between Failures (MTBF)

The average time that a device or a system worked without failure. The term can also mean the length of time a user may reasonably expect a device or system to work before an incapacitating fault occurs. **This must be as high as possible.**
